

VLSI-SoC 2026

34th IFIP/IEEE International Conference on Very Large Scale Integration (SoC)
Limassol, Cyprus | Sunday, 11 October to Wednesday, 14 October 2026 | St. Raphael Resort

CAMERA-READY SUBMISSION INSTRUCTIONS FOR ACCEPTED PAPERS

Congratulations on the acceptance of your paper at VLSI-SoC 2026. The proceedings will be published IEEE Xplore with IEEE holding the copyright. All final manuscripts must be submitted in an electronic format which conforms to the IEEE conference templates AND is compliant with IEEE eXpress. To submit your camera-ready papers, please complete the following steps:

Camera-ready deadline	Monday, 20 July 2026
Page limit	4 pages + 1 page with only references (single-spaced, 2 columns, 10pt font)
Upload platform	easychair VLSI-SOC 2026

Step 1: Revise your manuscript

Incorporate the reviewers' comments and revise your paper accordingly.

Confirm that the manuscript follows the IEEE two-column conference format and does not exceed the page limit.

Important! Do not include page numbers in your paper, a copyright footer information or any other headers or footers.

Use the official IEEE conference templates, available at ieee.org/conferences/publishing/templates.html.

Author list. The authors on the camera-ready paper must match, in number and order, the authors recorded at submission. Authors may not be added or removed after acceptance.

Step 2: Validate your PDF with IEEE PDF eXpress

All final PDFs must be checked for IEEE Xplore compatibility using [IEEE PDF eXpress](#). PDF eXpress is a tool provided by IEEE that automatically checks whether the PDF meets the requirements of IEEE Xplore. To check your paper with PDF eXpress:

First-time users:

1. Go to ieee-pdf-express.org and select the New Users link.
2. Enter Conference ID **70418X**, your email address, and a password.
3. Continue as prompted. You will see an online confirmation and receive a confirmation email.

Once you are logged in, follow the instructions to upload your camera ready paper. PDF eXpress will check your paper and will inform you about the outcome via email. After the PDF check is complete, click on the "Approve" button in PDF eXpress and verify that the status

changes to “Approved” to confirm that your file is compliant. **If the paper is Xplore compliant, upload the paper attached to the PDF eXpress email to easyChair as your camera ready version.**

Returning users:

If you have used PDF eXpress for a previous conference, follow the same steps but enter your existing password, and confirm that your contact details are current.

Proofread before you validate. Check the layout and content of your manuscript thoroughly before submitting it to PDF eXpress, so that no further revision is needed afterwards.

Support. For technical issues, use the IEEE [Publications Support Center](#). Questions submitted there are normally answered within three business days.

Step 3: Complete the IEEE electronic copyright form

An [IEEE copyright form](#) must be completed for every paper. The corresponding author will receive an email with a link to the IEEE Electronic Copyright Form (eCF).

The copyright form must be completed before you upload your camera-ready paper.

Step 4: Upload your final paper

Upload your validated, Xplore-compliant PDF using the proceedings submission link created for your paper on [easyChair VLSI-SOC 2026](#). The upload deadline is Monday, 20 July 2026.

Registration and attendance

At least one author of each accepted paper must register for the conference by the camera-ready deadline and is expected to attend and present the paper in person.

Papers not covered by a full author registration, or not presented at the conference, will be excluded from submission to IEEE Xplore.

Contact

For questions regarding camera-ready submission and publication, contact the Publication Chairs:

- **Enrico Fraccaroli** (enrico.fraccaroli@univr.it), University of Verona, Italy
- **Christiana Ioannou** (ceaioannou@uclan.ac.uk), University of Central Lancashire, Cyprus
